Monday October 25, 2021

Time	Topic	Speakers
2:30-3:45pm	Opening Session: The State of Genetic Medicine in the US Healthcare System Thought-provoking session to identify key themes, opportunities, and friction points in the market	Jill Hagenkord Peter Hulick Rob Metcalf
4:00-5:00	How Does Meaningful Change Happen in Healthcare? Systemic issues – complexity, fragmentation, misaligned incentives – inhibit the healthcare system from delivering on its promise to patients. Meaningful change is possible, but not easy. This interactive session will draw on examples of successful, sustainable, evidence-based change to explore how these models may apply to genetics and precision medicine.	Marty Makary All
6:00-8:00	Welcome Reception & Networking Kimpton Aertson Hotel, Woodlea Room (17th Floor / Rooftop)	

Tuesday October 26, 2021

Time	Topic	Speakers
7:00am	Breakfast <i>Kimpton Aertson, 8th Floor</i>	
8:00am	Welcome	Cliff Goodman Gillian Hooker
8:15-9:30	Reckoning with a Post-Pandemic World The changes brought about by COVID-19 are dramatic, but the full implications will take years to unfold. This discussion will unpack the changes in healthcare, focusing on themes in diagnostic technology, remote care delivery, outcomes monitoring, and consumer expectations.	Mara Aspinall Jim Almas Brad Smith
10:00-11:30	Learning Systems: Promise & Reality The speed of technological and scientific advancement continues to outstrip the pace of change in healthcare. The gap between promise and practice is widening. This discussion will apply a practical lens to how tech and data science (AI, machine learning, etc.) can enable precision medicine.	Edmund Jackson Andy Corts
11:30-12:45	Lunch & Discussion	
12:45-1:00	Recap & Afternoon Kickoff	

1:00-2:20	Evidence & Coverage in Genetic Testing Adoption and proliferation of genetic tests has continued on pace, but market dynamics have inhibited the accumulation of clinical evidence and health plan coverage decisions. This discussion will address the state of the state, the systemic barriers, the urgency for data-driven coverage decisions, and how they can be supported and accelerated	Chip Chambers Emily Evans Holli Dilks
2:40-4:00	Present & Future of Oncology Infrastructure Many of the most exciting applications of genomics and diagnostics (comprehensive screening, liquid biopsy, automated patient identification) are taking place in oncology, but the digital infrastructure of healthcare constrains the possibilities. This panel will discuss how advancements can be unlocked more quickly for the benefit of patients.	Ben Park Simon Barnett Jeffrey Emch
4:00-5:00	Observations, Insights & Actions	Suzanne Belinson Phil Febbo Heather Shappell
6:15-8:30	Music City at Night Reception and Bourbon Tasting Kimpton Aertson Hotel, Henley Restaurant	

Wednesday October 27, 2021

7:00am– varied	Breakfast & Meetings Organized small group/private meetings to discuss specific projects & initiatives. Contact event organizers to arrange meetings or request introductions. <i>Contact: Nick Tazik, ntazik@concertgenetics.com</i>
-------------------	---

Speakers & Panelists

Jim Almas, MD
VP & National Medical Dir. of
Clinical Effectiveness
LabCorp

Suzanne Belinson, PhD, MPH
VP, Commercial Markets
Tempus

Holli Dilks, PhD
Senior Director & Global Head of
Field Medical
Foundation Medicine

Phil Febbo, MD
CMO
Illumina

Mara Aspinall
Managing Director and Co-Founder
BlueStone Venture Partners

Chip Chambers, MD
Founder & President
DADA2 Foundation

Jeffrey Emch
Vice President, Diagnostics Strategy,
Global Oncology Marketing
GlaxoSmithKline

Jill Hagenkord, MD
CMO
Optum Genomics

Simon Barnett
Genomics Analyst
ARK Invest

Andy Corts
SVP, Research & Analytics
SignalPath

Emily Evans
Managing Director
Hedgeye

Peter Hulick, MD, MMSc
Director, Mark R. Neaman Center for
Personalized Medicine
NorthShore University HealthSystem

Speakers & Panelists (cont'd)

Edmund Jackson, PhD

Chief Data Officer
HCA Healthcare

Marty Makary, MD, MPH

Author, *The Price We Pay*
Professor & Chief, Islet Transplant Center
Johns Hopkins Medicine

Rob Metcalf

CEO
Concert Genetics

Ben Ho Park, MD, PhD

Professor & Director, Division of
Hematology and Oncology
Vanderbilt University Medical Center

Heather Shappell, MS, CGC

Independent Advisor
Clinical genetics evidence, coverage &
payment issues

Brad Smith

Founder & CEO, Russell Street Ventures
Fmr Director, CMMI & Deputy Director,
White House Domestic Policy Council
